

If you allow LPFM stations to take priority over current FM stations, I will no longer be able to listen to K-Love in Wake Forest, NC on 106.7FM. This station is totally listener supported and I AM A SUPPORTER. Please don't allow this to happen as there is only 1 other Christian station in this area and it is also hard to pick up here in my town. It's the only ministry I have since I am not a member of any church. Please don't take this ministry away from my community! K-Love is definitely a positive influence to this community!
